DETAILED ACTION

Election/Restrictions

- 1. Claims 62-64,66,67,70-71,73-83 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 5. Claims 66,67,70,71,73-75 were included in the list above because they clearly don't read on the elected species I (figs. 13-16). Claims 66 and 67 recite locations that are within 2 inches and one inch of each other. Reviewing the specification, it would appear claims 66 and 67 are drawn to the species shown in figure 36, see pg. 16, lines 3-5. Claim 70 and 71, refer to a pulley, which is not shown in the elected embodiment but it shown in the species of figure 37. In claims 73, the cable of the elected embodiment is attached at the guide 140, located in the front of the boot, but does not have means for altering at this location and therefore doesn't read on the elected embodiment. Claims 74 and 75 don't read on the elected embodiment because it doesn't contain an ankle strap secure to said shell member and further comprising a lace.
- 2. Applicant's election without traverse of species I (figs. 13-16) in Paper No. 5 is acknowledged.

Information Disclosure Statement

3. The information disclosure statement filed 5-21-01 fails to provide a copy of the foreign patents (documents F1 thru F8) and the examiner was unable to locate them in

the parent applicant. Applicant is encouraged to provide a copy of these references so proper consideration may be given.

Claim Rejections - 35 USC § 112

4. Claims 58-61,65,68,69,72 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Throughout the claims (claim 58, line 2-3; claim 59; claim 60, lines 2-3; claim 65, lines 3-4; claim 68, lines 2-3 and claims 69) applicant is claiming the forward lean adjustment system with regard to the boot. However, the boot has only been functionally recited, see claim 1, line 1, and therefore the claims are unclear and indefinite.

In claim 65, the phrase "said medial an lateral side" is unclear and indefinite. Shouldn't "an" be –and--?

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 6. Claims 57-61,65,68,69,72 are rejected under 35 U.S.C. 102(b) as being anticipated by DE 3822113 (Lederer).

Lederer shows a system (see figures 37) have structure substantially as claimed including medial and lateral side cable members (2666M or 2620), a tension adjustment

member (2618), the cable is attached at a forward portion on the side of the boot (2674 and 2646, respectively), an engaging arm including a plural engaging members (2668), and a loop back (see figure 37).
